Title: A Journal

Author: An Unknown Author

The other mages came by today, saying to expect some new work from our colleges at Fire Dungeon. It seems they can't finish it due to the attacks brought upon them from adventurers and fortune seekers. I don't know exactly what they are bringing but it must be something big to force relocation all the way down here. Sanya won't be very happy to hear I will be stuck down here for another few weeks.
